Plant and Soil

Contents of Volume 117 1989

Volume 117, No. 1, 1989

R. N. Sah, S. S. Goyal and D. W. Rains, Interactive effects of exogenous combined nitrogen and phosphorus on growth and nitrogen fixation by azolla 1
J.P. Thompson, Counting viable *Azotobacter chroococcum* in vertisols. I. Methods for preparation of soil suspensions 9
J.P. Thompson, Counting viable *Azotobacter chroococcum* in vertisols. II. Comparison of media 17
J.P. Thompson, Counting viable Azotobacter chroococcum in vertisols. III. The non-proportionality phenomenon 31
K. J. Middleton, M. J. Bell and J. P. Thompson, Effects of soil sterilization, inoculation with vesicular-arbuscular mycorrhizal fungi and cropping history on peanut (*Arachis hypogaea* L.) growth in an Oxisol from subtropical Australia 41
M. J. Bell, K. J. Middleton and J. P. Thompson, Effects of vesicular-arbuscular mycorrhizae on growth and phosphorus and zinc nutrition of peanut (*Arachis hypogaea* L.) in an Oxisol from subtropical Australia 49
S. Al-Khafaf, F. G. Aziz, H. M. Salih and F. J. Jack, Shoot and root growth and nutrients uptake of wheat as affected by soil layers 59
G. Caetano-Anollés, A. Lagares and G. Favelukes, Adsorption of *Rhizobium meliloti* to alfalfa roots: Dependence on divalent cations and pH 67
W. D. Temple, A. A. Bomke, R. A. Radley and F. B. Holl, Effects of kelp (*Macrocystis integrifolia* and *Ecklonia maxima*) foliar applications on bean crop growth and nitrogen nutrition under varying soil moisture regimes 75
W. D. Temple and A. A. Bomke, Effects of kelp (*Macrocystis integrifolia* and *Ecklonia maxima*) foliar applications on bean crop growth 85
W. Mason-Sedun and R. S. Jessop, Differential phytotoxicity among species and cultivars of the genus Brassica to wheat. III. Effects of environmental factors during growth on the phytotoxicity of residue extracts 93
C. Leyval and J. Berthelin, Interactions between *Laccaria laccata, Agrobacterium radiobacter* and beech roots: Influence on P, K, Mg, and Fe mobilization from minerals and plant growth 103
D. C. Whitehead, A. W. Bristow and B. F. Pain, The influence of some cattle and pig slurries on the uptake of nitrogen by ryegrass in relation to fractionation of the slurry N 111
M. P. Arvy, Some factors influencing the uptake and distribution of selenite in the bean plant *(Phaseolus vulgaris)* 129
A. H. J. Freijsen, S. R. Troelstra, H. Otten and M. A. van der Meulen, The relationship between the specific absorption rate and extremely low ambient nitrate concentrations under steady-state conditions 121
A. I. Yahya and S. K. Al-Azawi, Occurrence of phosphate-solubilizing bacteria in some Iraqi soils 135

Short communications

S. Larsen, V. Middelboe and H. Saaby Johansen, The fate of ^{18}O labelled phosphate in soil/plant systems 143
D. P. Nurhayati, D. A. Ivory and W. W. Stür, The effectiveness and competitiveness of some Indonesian Rhizobium strains on tropical legumes grown in four soil types of Java 146

Volume 117, No. 2, 1989

D. Waterer and R. Coltman, Response of lettuce to pre- and post-transplant phosphorus and pre-transplant inoculation with a VA-mycorrhizal fungus 151
B. Åström and B. Gerhardson, Wheat cultivar reactions to deleterious rhizosphere bacteria under gnotobiotic conditions 157
C.D. Kennedy and F.A.N. Gonsalves, The action of divalent Zn, Cd, Hg, Cu and Pb ions on the ATPase activity of a plasma membrane fraction isolated from roots of *Zea mays* 167
J.D. Destain, J. Guiot, E. François and A. Riga, Fertilizer nitrogen budgets of two doses of $Na^{15}NO_3$ dressings split-applied to winter wheat in microplots on a loam soil 177
C. Robinson, B. Griffiths, K. Ritz and R. Wheatley, Root-induced nitrogen mineralisation: A theoretical analysis 185
A.A.T. Vargas and P.H. Graham, Cultivar and pH effects on competition for nodule sites between isolates of Rhizobium in beans 195
G.M. Whiteley, The deformation of soil by penetrometers and root tips of *Pisum sativum* 201
H. Levanony, Y. Bashan, B. Romano and E. Klein, Ultrastructural localization and identification of *Azospirillum brasilense* Cd on and within wheat root by immuno-gold labeling 207
A.M. Mårtensson, L. Brutti and H. Ljunggren, Competition between strains of *Bradyrhizobium japonicum* for nodulation of soybeans at different nitrogen fertilizer levels 219
E.T.F. Witkowski, Effects of nutrient additions on litter production and nutrient return in a nutrient-poor Cape fynbos ecosystem 227
S.S. Lee and K.L. Lim, Mycorrhizal infection and foliar phosphorus content of seedlings of three dipterocarp species growing in a selectively logged forest and a forest plantation 237
D.J. Lodge, The influence of soil moisture and flooding on formation of VA-endo- and ectomycorrhizae in Populus and Salix 243
M.D. Busse and P.J. Bottomley, Nitrogen-fixing characteristics of alfalfa cultivars nodulated by representatives of an indigenous *Rhizobium meliloti* serogroup 255
N. Sanginga and C. van Hove, Amino acid composition of azolla as affected by strains and population density 263
N. Sanginga, K. Mulongoy and A. Ayanaba, Nitrogen fixation of field-inoculated *Leucaena leucocephala* (Lam.) de Wit estimated by the ^{15}N and the difference methods 269
M. Yamauchi, Rice bronzing in Nigeria caused by nutrient imbalances and its control by potassium sulfate application 275

Short communications

K.R. Sreekumar and A.N. Sen, Competition among *Bradyrhizobium* sp. strains on nodulation of *Vigna radiata* (L) (Wilczek) 287
I. Papastylianou, Effect of selected soil factors on chlorosis of peanut plants grown in calcareous soils in Cyprus 291
